

Job Offer

videoCube | media.net.in.tum.de

We are looking for talented students that want to join our teaching tool development!

Do **you** offer?

- creativity
- self-organisation
- python
- bash
- ffmpeg/ avconv
- gstreamer
- MVC frameworks
- HTML 5
- JS

The videoCube is an innovative **lecture recording hardware** that records your presentation slides and you via camera.

It provides fully automated processing.

We would be happy to welcome you in this cool project.

The media portal (media.net.in.tum.de) provides students the **recordings of their own talks** as well as **lectures** and other presentations.

The tool provides a fine granular access control, rating system, editing functionality, etc.

Interested?
